It was brought to the attention of the Editor-in-Chief that large sections of the texts and images in the paper [1] are identical to previously published in Mount Sinai's Radiological Charts available at <http://www.radcharts.org/Uterus/Uterus.html>, Troiano RN, and McCarthy SM [2], Pizzo A, *et al.*, [3] and number of published articles [4,5] internet sources including slideshare [6, 7] among others. The matter has been investigated and explanations were called from authors, however, no reply was received. The matter is being forwarded to authors' institution for necessary action.

We apologise to the readers of the journal that this plagiarism was not detected during the submission and review process. The Editor-in-Chief and the editorial board have decided to check all submitted manuscripts for plagiarism in future.
